

Table of Contents

INTRODUCTION	INT-1
The specific procedures to be followed by the importing trade community to participate in Air AMS.	
OVERVIEW	OVR-1
A brief overview of the various functions and responsibilities of Air AMS participants.	
REQUIREMENTS	REQ-1
The standard process for bringing Air AMS participants on-line.	
MESSAGE OVERVIEW	MSO-1
Brief description of how messages are constructed and how message formats are presented in this document.	
AIR AMS MESSAGE TYPES	MST-1
Presents each Air AMS message type and the components necessary for each message type.	
Freight Report Inbound (FRI)	MST-1
To report consignment and scheduled arrival information for air waybills.	
Freight Express Inbound (FXI)	MST-2
To report consignment and arrival information of express courier shipments at a courier hub or an express consignment carrier facility.	
Freight Report Change (FRC)	MST-3
To amend previously accepted air waybill records or to provide original air waybill data outside of the time requirements for FRI transmissions or to provide data for air waybills arriving via a non-Air AMS carrier.	
Freight Express Change (FXC)	MST-4
To amend previously accepted express air waybill records or to provide original express air waybill data outside of the time requirements for FXI transmission or to provide data for express air waybills arriving via a non-Air AMS carrier.	
Freight Report Cancellation (FRX)	MST-5
To cancel a previously accepted air waybill record.	
Freight Express Cancellation (FFX)	MST-6
To cancel a previously accepted express air waybill record.	

Freight Status Notification (FSN).....MST-6
To notify the airline or cargo terminal operator of an action taken by CBP or another government agency or to notify CBP of the status of cargo.

Freight Status Information (FSI)MST-7
To notify the AWB nominated agent not in possession of the cargo (freight forwarder) of an action taken by CBP or another government agency.

Flight Departure Message (FDM)MST-8
To notify CBP of a flight departure from the last foreign airport enroute to the United States.

Freight Error Report (FER)MST-9
To notify the message originator of an error(s) in a previous message to CBP.

Freight Status Query (FSQ).....MST-9
To request the status on an air waybill.

Freight Status Conditions (FSC)MST-10
To respond to queries (FSQ) generated by Air AMS participants.

MESSAGE LINE IDENTIFIERS _____ **MLI-1**

Standard Message Identifier (SMI)MLI-3
Denotes the Air AMS type of message being sent.

Cargo Control Location (CCL)MLI-4
Identifies the first airport of arrival in the United States and the originating airline or FIRMS code.

Air Waybill (AWB).....MLI-5
Valid air waybill and optional package tracking identifier (excluding FSQ/FSC message types).

Air Waybill (AWB).....MLI-6
Valid air waybill and part arrival reference (FSQ/FSC message types only).

Waybill (WBL).....MLI-7
The details of an air waybill.

Arrival (ARR).....MLI-8
Flight arrival information for air waybills arriving on a single aircraft (excluding FSC/FSN/FSI/FRX/FFX message types).

Arrival (ARR).....	MLI-10
Flight arrival information for air waybills arriving on more than one aircraft (FSC/FSN/FSI/FRX/FXX message types only).	
Customs Entry Detail (CED)	MLI-11
Used only with express consignment processing participants.	
Agent (AGT).....	MLI-12
Used to allow an Air AMS participant other than the importing air carrier to provide additional information for a master air waybill and all related house air waybills.	
Shipper (SHP).....	MLI-13
The shipper's name and address.	
Consignee (CNE).....	MLI-14
The consignee's name and address.	
Transfer (TRN)	MLI-15
In-bond or local transfer information.	
Customs Shipment Description (CSD).....	MLI-17
Required for express house air waybills and in-bond transfers.	
Reason For Amendment (RFA).....	MLI-18
Required for message types FRC, FRX, FXC or FXX.	
Departure (DEP)	MLI-19
Required for message type FDM. Accepted only from the importing Air AMS carrier.	
Airline Status Notification (ASN)	MLI-20
Required only in a FSN message sent to CBP.	
Customs Status Notification (CSN)	MLI-21
Required in a FSN message sent from CBP.	
Error (ERR)	MLI-22
Required in a FER message sent from CBP.	
Freight Status Query (FSQ).....	MLI-23
Used by an Air AMS participant to request the current status of an air waybill record in Air AMS.	
Freight Status Condition (FSC).....	MLI-24
The Air AMS response code to the FSQ message sent by the Air AMS participant.	

Text (TXT).....MLI-25
A text message used with the FSC status code to respond to an FSQ message sent by an Air AMS participant.

APPENDICES

APPENDIX A _____ A-1
Provides Entry Codes, Amendment Codes, Posting Codes, General Order (G.O.) Status Codes, Error Codes, ISO Country/Currency Codes, CBP Domestic Airports

APPENDIX B _____ B-1
Provides Air AMS message examples.

APPENDIX C _____ C-1
Cross reference of data elements.
